

Not using all of your Apprenticeship Levy? Here is how you can share your excess levy funds.

Employers who pay the Apprenticeship Levy are now able to share up to 25% of their funds with other organisations. Funds paid into the Levy expire after 2 years and by transferring them to another organisation you ensure that your contributions continue to support the Apprenticeship agenda.

The Cambridgeshire and Peterborough Combined Authority have launched their Levy Pooling Service to support the utilisation of the Apprenticeship levy and to enable non-levy employers to better connect into wider value chains and spread funding more effectively across local sectors.

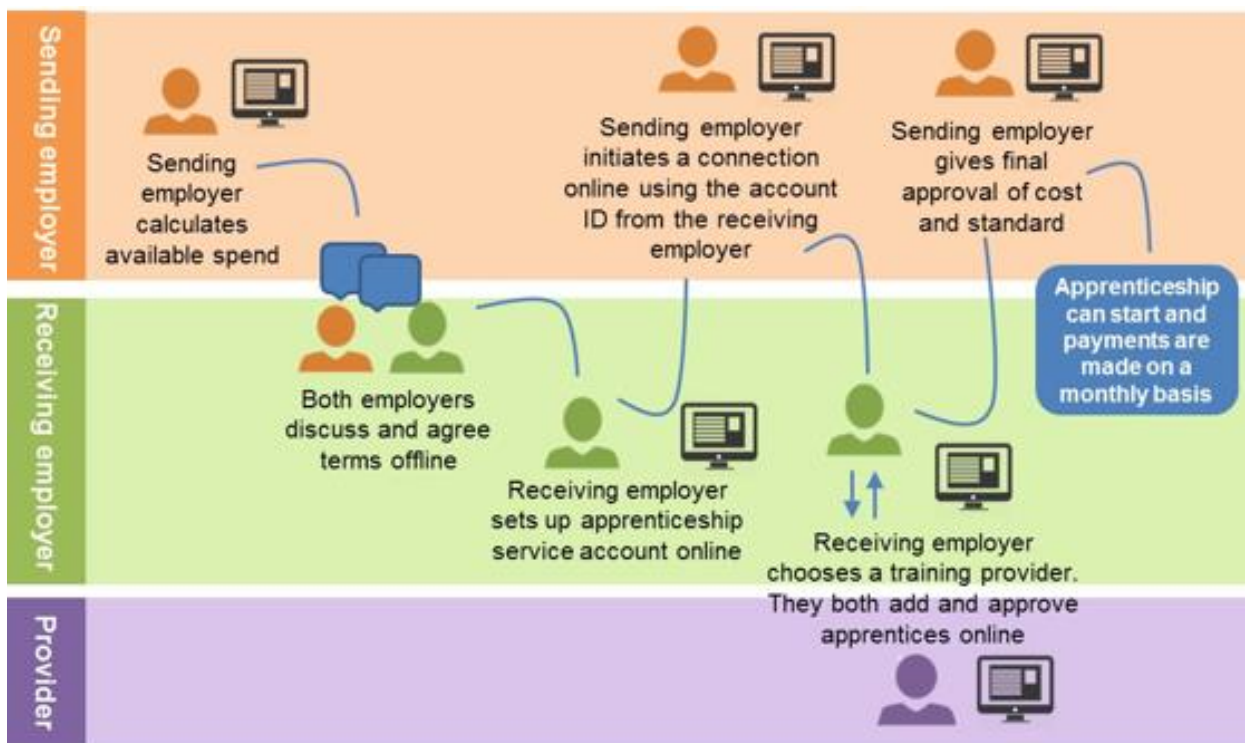

How Levy Transfers Work

Impartial support will be provided by the CPCA to those pleading to share their levy by:

- Calculate the levy pot and profiling funding
- Support in administering the digital account
- Help with sending or receiving a transfer
- Identifying organisations to share fund with

Levy Transfers can:

- Develop your supply chain
- Support corporate social responsibility
- Help smaller organisations to grow Apprenticeship numbers
- Help to build strategic relationships

Supporting Key Sectors Across Cambridgeshire and Peterborough
