**Commentary**  
 All LGF funds had been allocated as of March 2020, during the first quarter of 2020/21 3 projects indicated they were unable to deliver to the timeframes due to issues relating to the COVID outbreak. As such the funds were resubmitted to the LGF pot and a number of projects that have been held in a pipeline are being progressed through the assurance framework. We anticipate that all funds will be allocated by the 2nd quarter of this financial year for return by March 2021.

The projects that have withdrawn are:  
 LGFGCP36 - returning a value of £697,000  
 LGFGCP23 - returning a value of £1,000,000  
 LGFGCP46 - returning a value of £3,000,000

The Business Board are due to meet on the 27 July to agree 3 potential submissions valued at over £6million, the decision will be made following the due diligence reports and scores. Please note this meeting took place and 2 projects have been approved for funding and are being progressed to contract signing. There remains £800k of LGF funds which pipeline COVID City Centre projects are being developed - these will be presented to the Sept 2020 BB meeting

We are actively managing projects that are not in contract and are flagged as Amber/Green on the risk log - these are being progressed with legal support to ensure contracts are signed as soon as possible. The BB are updated on the progress to contract and any issues when they meet but also via a monthly update that is circulated to include, risk, issues, and pipeline projects.

The remaining projects are being monitored for delivery outcomes and revised programmes have been requested where issues have been highlighted.
