Subject: Affordable Mass Transit for Cambridge and Peterborough
Date: 10 August 2018 12:08:42

Dear James, Tom

Thank you both for your time and consideration during our meeting in Ely last week. It was a good discussion, and we were very pleased that you received us with such open minds and a willingness to explore the ideas which we put forward.

As we said during our meeting, we are intending to submit a proposal to InnovateUK which will describe a project to build and test an all-electric, driverless, vehicle which could become a central part of a future, low cost, mass transit solution ('Metro-lite'). The culmination of our project will be a demonstration of this vehicle on the Cambridge Guided Busway. A letter of support from the Mayor, which could be attached to our submission, would really strengthen our hand. We already have offers of support from the cities of Oxford and Milton Keynes, and we believe a 'full house' from the East-West Corridor Cities would make our submission very compelling. We need this letter by the end of August and, if you would be willing to help us in this way, we would be very grateful. If it would help for us to provide a draft, we would be happy to do so.

On a slightly different note, we have become very interested in serving the public transport needs of the wider geography in the manner discussed towards the end of our meeting. It would be very exciting to look at this in a bit more detail, because our Metro-lite system is very well suited to covering medium distances in rural settings. We could envisage, in the long-term, a mesh of affordable connectivity spanning the entire region between Peterborough and Cambridge – a home-grown solution to a very difficult public transport challenge. We would be keen to have a look at this proposition in a bit more detail, but it would require some additional effort. We estimate that a budget of around £50K would be required. Would the Combined Authority be willing to fund such a preliminary study?

Finally, we spoke briefly about the LEP and its role in creating increased economic activity. I have just come from a meeting in which the engagement of the West Midlands Combined Authority in the Coventry Very Light Rail project was described to me. The financial support of the LEP has been very significant to the launch of that project, and we would be keen to explore the possibility of gaining similar support for our Cambridge-grown Metro-lite system. Would you be able to give us some guidance on how best to achieve this, please?

Once again, many thanks for your time and willingness to engage with us last week. I do hope we may now begin to work more closely together on solving the public transport challenge for our local communities.

Very best regards,
John

Hi Julia,

Would you be able to resend the invite to John's email address. This is john.miles@arup.com.

Thanks!

Liz

Dear Mr Palmer,

I'm contacting you on behalf of Professor John Miles who you recently met at the Business Weekly Awards and dinner which was held at Queens College, Cambridge. You kindly agreed to meet with John to discuss future transport systems for the city. Would it be possible to arrange a meeting for an hour sometime soon? The subject of the discussion would be the future vision for mass transit in the city. John is happy to juggle his diary to accommodate your availability.

Best wishes,

Liz

Dear Professor Miles

I am contacting you with regard to the meeting with the Mayor of Monday 2nd July. Unfortunately the Mayor is no longer able to meet on this date and has asked if we could look to rearrange to later in the month.

Is it possible you could provide me with some dates in late July when you would be available to meet.

I look forward to hearing from you.

Kind regards

Julia

Hi Liz

Thank you for the update and John will shortly receive a meeting invitation.

Kind regards
Julia

Hi Julia,

Please can we make it the 2nd July in the morning. John has the whole morning free so can meet at any time. Would you be able to send an invite with the details? John's email is john.miles@arup.com.

Thanks,

Liz

Dear Julia,

Thanks for your reply. Unfortunately these dates aren't suitable for John. He is in Sweden on the 14th and 15th and has a meeting on the 22nd which I can't rearrange. Do you have any further dates?

Best wishes,

Liz
